- **Gx:** The text above each vertical line on the graph represents the student's grade at the same time the test occurred.
- Student RIT Score Line: The RIT score the student received on each growth test. This line may contain a dashed portion following the most recent test event to represent projected growth over the next instructional year. Projected growth is the average fall-to-fall or spring-to-spring RIT growth of students who were in the same grade and began the growth comparison period at a similar achievement level as observed in the most recent NWEA norming study.
- District Average RIT Line: This line represents the average score for all students in the school district in the grade who were tested at the same time.
- Norm Group Average Line: This line represents the average score for students who were in the same grade and tested in the same term as observed in the most recent NWEA norming study.
- Goal Performance: Each goal area included in the test is listed along with a goal strand RIT range or descriptive adjective of the students score.
- 6 Lexile® Range: A score (displayed as a 150-point range) resulting from a correlation between NWEA's RIT score and the MetaMetrics® Lexile® scale that helps identify reading material that is at an appropriate difficulty level for an individual student.

MAP® Reports

Online Individual Student Progress Report

(Graphic Format)

Displays student scores as compared to district average and NWEA norm group average in graphical format.
