How to Enable and Disable Kami as Default File Viewer

There are two places that Kami can open files, your Chrome browser and Google Drive.

Google Chrome

Open Kami and click the profile icon found on the upper right corner of the window, and click Settings.

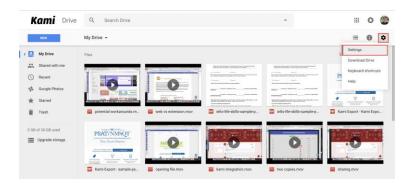

Tick 'Automatically Load Files in Kami' if you want Kami as your default file viewer. Untick the option if you don't want Kami to be the default viewer.

| Settings | | | | |
|--|-------------------------|--|--|--|
| Automatically Save My Changes to Google Drive | | | | |
| Automatically Load Files in Kami | | | | |
| Enable Browser Notifications | | | | |
| Enable Email Notifications | | | | |
| Theme | Light Theme \$ | | | |
| Google Drive | Install to Google Drive | | | |
| | | | | |

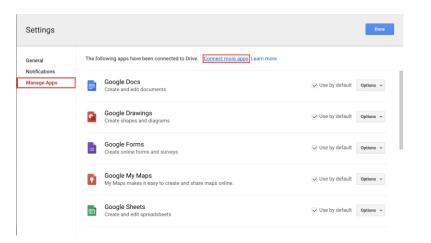

Click Update to save.

Google Drive

- 1. Go to https://drive.google.com.
- 2. Select the gear button in the top right corner, and select "Settings."

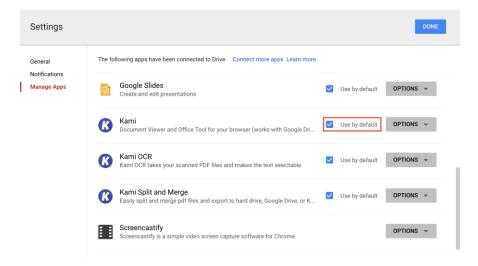

3. Select "Manage Apps," and then select "Connect more Apps."

4. Search for Kami, and select "Connect."

5. Go back to Manage Apps, and select "Use by default."

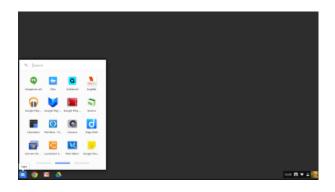

Chrome Bug

If you are still having issues and you are using a Chromebook, this is likely because of a Chrome bug which makes Kami the default file opener for non-PDF files (which should not happen). Please follow these instructions:

First, navigate to the Files app.

- 1. Click the App Launcher icon in the bottom-left corner of your screen.
- 2. Locate the app icon for Files and click it.

Once in the Files app:

- 1. Select the type of file that is being automatically opened (ppt, docx, etc)
- 2. Click Open -> Change default to whichever option is best for you
